

Monday evening, 6:00 p.m.

From: Randy English

Tutuila Island,

American Samoa

Dear friends,

*We want to thank you for your continued prayers and interest in the well being of those here in the Samoan Islands who have been severely affected by the recent tsunami. We are sending you this brief update to let you know that we are fully underway with another distribution that will take place Tuesday evening at **Asili Village**. Today, we also received an update from the brethren in the country of Samoa regarding relief efforts that we have been involved with. They are very thankful for what has been done, yet we know that there is much left to do. We are planning another relief trip to Samoa (Upolu Island) in just a few days.*

Today we met with village officials and residents to walk through the area most affected....the destruction was severe and there are many needs that exist. However, we are grateful to you for providing relief and we want you to know that your thoughtfulness means so very much to the church here and certainly to those who are directly receiving the relief items. Clothes, rice, tools, house wares, Bibles, cloth, and more is being assembled now and made ready for this distribution to the people of Asili. Pray that God will continue to open these doors brethren....and that in all things God will be glorified!

In Christ we live and serve,

Randy and Sharon English
